

# Klottr: User manual

Klottr is an Android application that gives the user an opportunity to post a message on his / her location and read messages from anywhere in the world. Did you climb Mount Everest, had a wonderful coffee or simply want to find out what's going on in the area? Then Klottr is the app for you, with just a few clicks you get access to all the latest events.

Klottr lets you add a "Klottrwall" or on your current location using Google Maps. People who are close to this location can then write whatever they want on this wall. This is a great way to share information, meeting new people or displaying achievements on locations that are difficult to reach. Everyone who uses Klottr can read every Klottrwall posted in the world, which is great for advertising events, partys, restaurants, meetings,stories... With other words, you can use the application for just about anything.

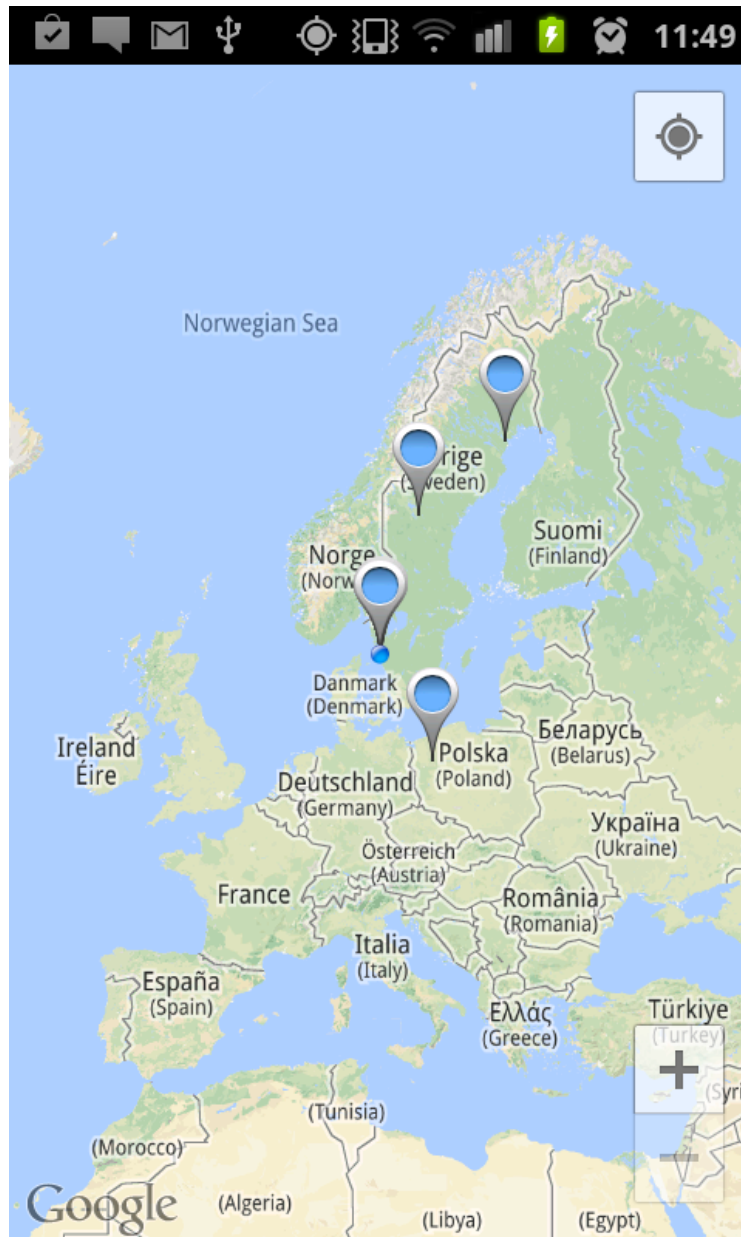

*Initial loading screen of Klottr*

## Viewing the map

When the application is launched you will see your location centered on the map with a little blue icon.

Any Klottrwalls within the visible map area is displayed as blue, interactive markers.

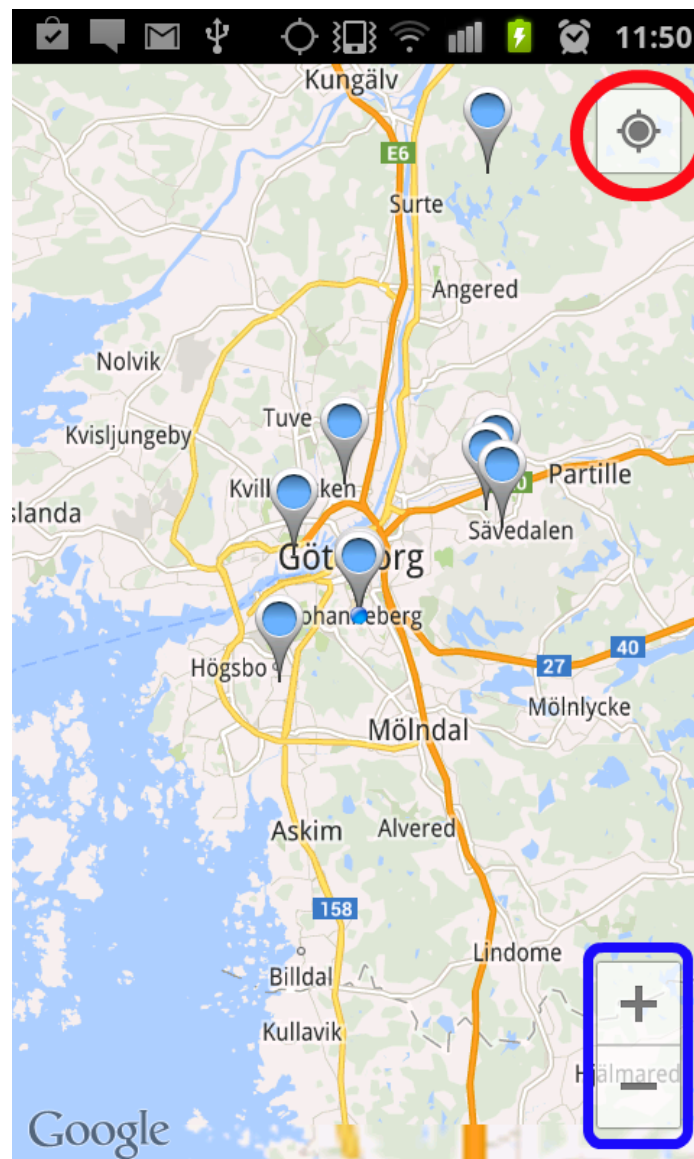

*The first view of the map*

## Zooming and mapcontrols

To focus and zoom the camera on your current location, press the icon marked with a red circle below.

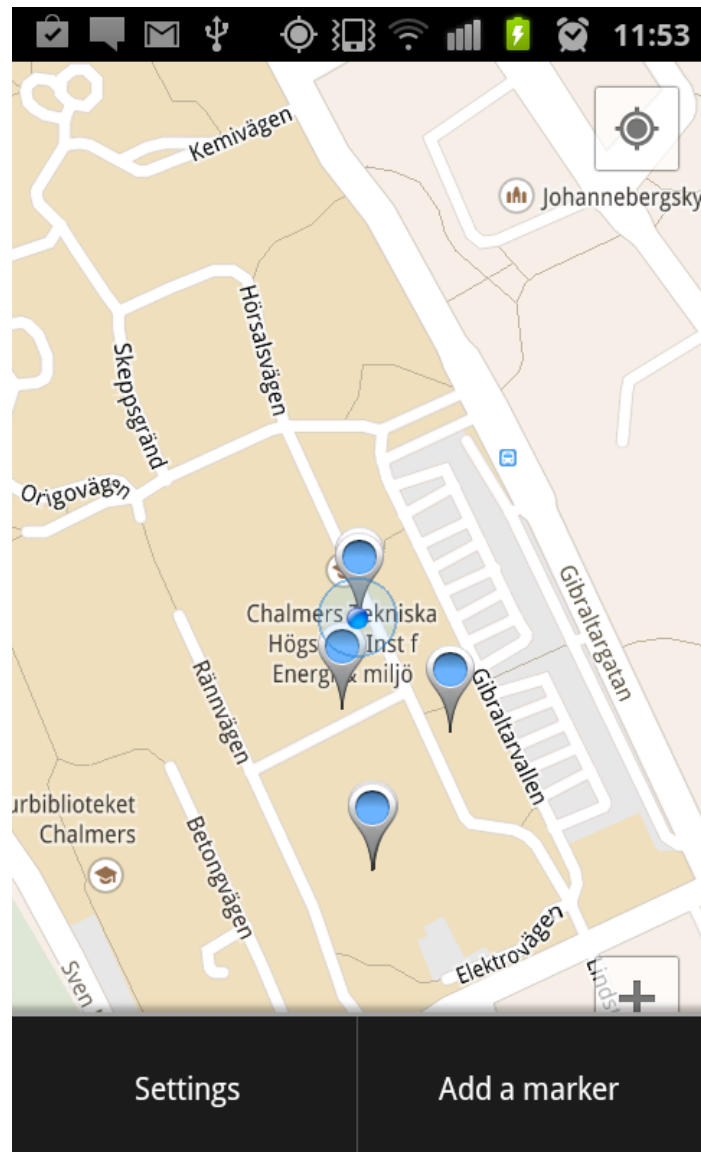

You can zoom manually by pressing the buttons within the blue rectangle below. “+” will zoom in and “-” will zoom further out. There are other methods to interact with the map such as tapping twice to zoom in, use two fingers and drag them towards /away from each other to zoom in and out and you can also move your fingers in a rotation to turn the map orientation.

*Slightly zoomed in view of the map*

## Add a Klottrwall to the map

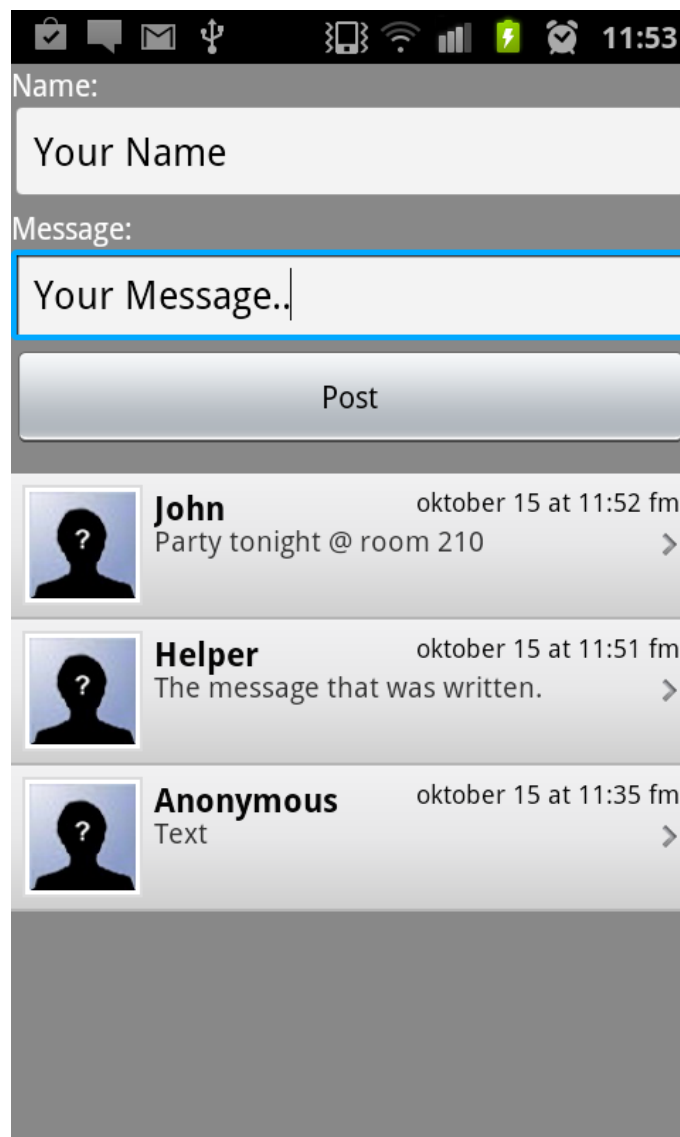

To add a Klottrwall, simply press the menu button on your device, followed by “Add Marker” in Klottr. This will add a marker on your current position under the condition that there is not already a marker there. However, if there is a marker too close you, there will be a popup notification displaying an error message.

*Click “Add a marker” to create a Klottrwall*

## View & Post on a Klottrwall

To view an individual Klottrwall on any location, simply press the blue marker on the map representing the wall. A view for the certain Klottrwall is displayed, showing all the messages written on the wall and it gives you the option to write on it. To write on the wall, simply write a message and enter a name if you want then click the “Post” button. If the name field is left empty, the name will be shown as “Anonymous”. If you are too far from a Klottrwall, your message will not be posted and you’ll receive a small popup with the error message.

The screenshot displays the Klottrwall details view on a mobile device. At the top, there is a status bar with various icons and the time 11:53. Below the status bar, the form for posting a message is visible. It includes a 'Name:' label followed by a text input field containing 'Your Name'. Below this is a 'Message:' label followed by a text input field containing 'Your Message..'. A blue border highlights the message input field. Below the message field is a 'Post' button. Under the form, there is a list of previous messages. Each message entry includes a profile picture (a blue square with a white question mark), the user's name, the time, and the message content. The messages are from 'John' (Party tonight @ room 210), 'Helper' (The message that was written.), and 'Anonymous' (Text). Each message entry has a right arrow icon.

Name	Time	Message
John	oktober 15 at 11:52 fm	Party tonight @ room 210
Helper	oktober 15 at 11:51 fm	The message that was written.
Anonymous	oktober 15 at 11:35 fm	Text
